Corn Crows Vanish in a Moment

HERE is a fact which millions know. It is so clear, so simple that it makes a corn ridiculous. You can stop any corn pain in a jiffy, and it is for good.

You can do any corn quickly and end it completely. You can do this without any pain, without any medicine, without any fuss.

So corns are utterly unnecessary. And folks who have them nowadays do not know how to get rid of them.

You can prove these facts on any corn by applying a Blue-Jay plaster. The pain will stop instantly.

Then a bit of wax, covered with the plaster, will gently absorb it. In two days, usually, the corn will be gone. An occasional corn needs a second application. The plaster will stop instantly.

This is a scientific method, invented by a famous chemist.

Toronto Woman Gave Up All Hope

Mrs. Gorrings Never Expected To Be Well Again—Has Restored Her

"Positively, the day I started taking Teacher was the turning point in my life, and I wouldn't be getting this wonderful medicine for anything," declared Mrs. J. Gorrings, of 1111 York street, Toronto, who is crippled by "Tetter Rheum, Lipo, the other."

Last winter," she continued, "I underwent a serious operation that was such a severe shock to my nervous system that when I left the hospital I was in a state of collapse. My strength was completely gone, my weight was at a low ebb and I didn't seem to be able to improve at all. My appetite failed and the little I forced myself to eat did not go down for fear of ill. I weighed only 110 pounds and was little more than skin and bones. My skin was so pale and soiled it looked like I had no blood in my veins and I just sat there day after day, and I was not able to do anything but weep bitterly now and then."

"I was a wreck of an over-acted, pale, nervous woman, and I was so weak that I actually didn't care whether I was or not. I was so weak that I was not able to do anything but weep bitterly now and then."

The response to our offer of these special PRICES for summer wear, has been gratifying to us, and no doubt means some lightening of our HEAVY FALD burden. By no means are we deploring our HEAVY FALD Trade, for from it it is with a view to educating the PUBLIC to the MUTUAL advantages of preparing well ahead of winter to make his many returns, by having our FURS attended to NOW. LOW PRICES, FREE STORAGE, FURS ALL READY WHEN NEEDED, are to your advantage. It will be easily seen that if our customers do this, we shall be relieved of many an all-night session in the fall; thus, by equalizing our working days it would be to the advantage; hence these offers of LOW PRICES

## Civic Joy Celebration To-Night For Great Allied Victories

There will be a hot time in the old town tonight and a more or less faithful representation of the fate deserved by the Kaiser will be given on the Market Square where his super-Satanic Lese Majeste will be burned in effigy.

At a meeting of the City Council this morning presided over by Mayor Platt, arrangements were completed for the civic day celebration tonight to fittingly express the jubilation of the citizens over the recent great allied victories which have changed the whole aspect of the war and are bright with promise of early and decisive triumph for the armies battling for the freedom of the world.

A parade will be held, starting from the Market Square at 7.45, led by the 15th Regiment of Cavalry, and anticipated to be one of the most successful in the history of the city.

Great War Veterans and citizens generally.

Citizens owning automobiles are requested to turn out and join in the

parade, which will form at Market Square at 7.45 and proceed along Front street to the Upper Bridge, returning to Dundas and thence back

Brief speeches will given by Mayor Platt, ex-Mayor Ketcheson, Col

It is desirable that the parade be made as large and imposing as possible.

## TO THE TIMEKILLERS

If you have time to your hands

that will kill you, you are a timekiller.

The previous row, in distant lands

That every second you can spare

With those around the dining table

**Be Careful What You Wash Your Hair With**

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain purified coconut oil for it is pure.

and entirely greaseless. It's very cheap, and beats anything else all the place. You can get this at any drug store and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather.

The world's greatest athletes and porters have poured out their loyalty in a rich, red stream for humanity. In the scroll of history, the names of the fighting jockeys, the ball players, in fact, all sports will hold large space.

There are those who follow the names who cannot get "over there." They are willing to do their share at any cost but not to do the idea of the man who has the idea of saving upon them that saving pool, producing food, and buying goods, bringing wealth. They do, but there is still more to be done.

Can you run a motor car?

There will be much work to be done in the operation of threshers and binders. Learn to operate a farm machine and help in this way. It's the work that sells.

## Music and Drama

Both Ella Ferguson in "The Danger Mark," and Sessue Hayakawa in "The Bravest Way" pleased last night at Griffin's, and the large audience that was present showed their hearty approval by the many outbursts of applause. As both stars are well known and favorites with Belleville audiences, big business should be the result for Friday and Saturday matinee and night.

**"CIVILIZATION"**  
Coming to Griffin's for the last half of next week is the best liked picture screen to date entitled "Civilization." The story took more than a year to complete, and it is said to have taken 40,000 people and 10,000 horses to complete this monster picture.

Next week-end will commence the new serial photoplay "A Fight for Millions," with William Denning and Edith Johnson and Joe Ryan. Favorites in the "Vengeance" serial, "The Woman" "Fighting Tramps" serials. In spite of the cruel war, the high cost of living and how they trouble that this old world is beset with, in the hearts of Canadians romance still lives, responsive to the heroic deeds of brave men and devoted women. In this new serial story concerns the rack of Jean Bonard, the finding of a nickel and cobalt on her ranch and the death of her mother before she is born. The father has misjudged her mother and has left her. On his death she has borne of her innocence from the hands of a liar, a faithful Indian. His wife leaves his property to Jean providing she marries within two weeks. The story is by Walter Hyde. T.

Hyde getting a start on Lawless  
garroting him in a hotel room. A w  
logical story of the great West an  
reproduction through the wonder  
medium of the moving picture  
shine of the many thrilling and  
ring happenings that have taken  
are taking place continuously ou  
the great western country. A s  
suitable for everyone between  
ages of six and ninety six.

## APPRECIATION

It is a term we feel permitted to use, as being descriptive of the state of mind of many of our customers who have taken advantage of our SUMMER FUR PRICES. The response to our offer of these special prices for summer furs has been so great, that we have had to close many more lightening of our HEAVY FUR burden. By no means are we deploring our HEAVY FUR TRADE, far from it; but it is with a view to securing the PUBLIC the MAXIMUM advantage of preparing well ahead of winter to make good its many returns, by having your FURS altered in NOV., LEAVE YOUR FUR PRICES STRAIGHT FURS ALL READY WHEN NEEDED, and to your advantage. It will be easily seen that if our customers do this, we shall be relieved of many an aching season in the fall. ## Hun Undersea Pirates Capture Large Canadian Fishing Trawler

**Armed With Two Guns and Manned By Sixteen  
Germans-- Captured Trawler is Raiding Canadian  
Fishing Banks and Sinking Boats**

An Atlantic Port, Aug. 21.—A German submarine, late yesterday seized the big Canadian fishing trawler *Triumph*. The crew, who reached shore safely, said they believed that the Germans intended to use the trawler as a raider. An armed guard of Germans had been placed aboard and no preparation made to sink the ship, the men said.

**SINKING FISHING SMACKS.**

A Canadian Atlantic Port, Aug. 21.—The trawler *Triumph*, with two guns and wireless, and manned by sixteen Germans from a U-boat which captured her yesterday, is raiding the fishing banks off the coast of Nova Scotia and the crews of schooners sunk by the *Triumph* have arrived here. The vessels known to be sunk are the *Una* P. Saunders of Lunenburg; E. Pyatt Andrews, of Gloucester, Mass.; and the *Francis* O'Hara, of Boston.

Capt. Wallace Bruce, master of the Gloucester schooner, told the Canadian Press today that his vessel was held up by the Triumph yesterday afternoon and that he and his crew were given ten minutes to leave the ship. The Germans then sank her with bombs. The Triumph was the first of the British and American vessels, sinking them in turn.

The dorics from the three vessels reached here at 10 o'clock this morning. The fisherman say that while making for this port they heard shots and they believe that a number of other fishing vessels have been sunk.

Captain M. Yrre, master of the Triumph, who landed here with his men this morning, told the Canadian Press that the captain of the submarine said that his was only one of six U-boats operating on this coast. "We intend to destroy the fishing fleets," the German captain said.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is Hurwitz. This result is obtained by using the method of the variation of constants.

British Holding Virtually All of Arras—Albert Railroad Embankment and More Advanced Points Despite Fiercest Attempts by Germans to Dislodge Them

With the British Armies in France, Thursday night.—The battle north of the Ancre River raged furiously during the night and morning, and the British held their ground. Every inch of the railway embankment in the north was fought for, the Germans being regarded this as the most important position of the battlefield.

The Germans were strongly entrenched on a line running through the night and morning, and the British held their ground. Every inch of the railway embankment in the north was fought for, the Germans being regarded this as the most important position of the battlefield.

To the northward, especially in the vicinity of Albert, the British held their ground. Every inch of the railway embankment in the north was fought for, the Germans being regarded this as the most important position of the battlefield.

The British, by flanking in large number of troops at last reported had come back to the writers, part of the village, but this appears to have been done a number of times. The British are determined to get on here, even if it means a number of days of fighting.

There has been the same sort of desperate fighting in front of Arras, where the Germans for a time have managed to withstand assault.

G. T. LEAGUE.

Beane, its Office, H.

The third game of the G. T. League was played at First Street School grounds last evening before a crowd of about one hundred and fifty people and resulted in a win for the Beane team by a score of 13-5.

Although "the score was a good one to watch, the hitting on both sides being terrific and the closeness of some of the plays" supporters a chance to tell their story.

In the first innings the Office scored three runs and the game looked to be clinched, but the Beane boys took care of the locomotive were not so to be outdone and in their first score, two evening things up somewhat.

After this the Beane were a real power for both teams and were back nearly all the time. Menden scored the sixth run when he was out nearly three-fourths over centerfield.

Beane, however, the Office also had some lively rallies at the plate and put to third score on twice on the hit, sending him in about of the outside of two, two men, it would be hard to pick out the best player in either side, as nearly everybody was making the homicide for fair.

Positive of how much it was breaking the pitcher's head. Pingle started to pitch for the Office team, and did well, but his support was poor at times.

Beane was an exceptional and was lucky to know how to play.

Beane, "Dick" Barrett and "Billy" Pepper united the game.

At times good exhibitions of the game was given by both teams, although it was apparent that the Belton players were outclassed, especially in fielding. ## CANADA'S MOUNTAIN CURIOS

CANADA'S mountains are full of natural curiosities—things of which the world is not so full. The Maker of the universe has bestowed infinite variety in His great creation. No two rocks are alike in shape or symmetry; no two waterfalls pour from the heights in equal volume; no two rocks are polished in identical fashion. There are no "regular" in the world of the mountains, and there are therefore marvels and things of which the world is full.

There are some of them: first, the snow-capped peaks, the jagged ridges, the hoodoos of Canada. On the coast, and north of the U. S. R. R. there are many of them. They are not only beautiful, but they are also of great value to the world. They are the source of many of the world's great rivers, and they are the source of many of the world's great mountains.
